Currently, provision of 27 credits for dissertation work in M.Sc. (Agri.) / M.Tech / MBA programmes helps practically only those students who aspire to pursue their career in academic / research. There is hardly any opportunity/ provision under this system to enhance the entrepreneurship skills of those

11/08

students who could start their own enterprise or have adequate skills to join the industry. Therefore, in order to overcome this gap, an optional internship/ in-plant training (called as IDEA) in lieu of thesis/ research work is recommended which will allow the students to have a real-time hands-on experience in the industry.

It is envisaged that the internship/ in-plant training would enhance the interactions between academic organizations and the relevant industry. It would not only enable the development of highly learned and skilled manpower to start their own enterprises but also the industry would be benefitted through this process. This pragmatic approach would definitely result in enhanced partnerships between academia and industry.

The Internship for Development of Entrepreneurship in Agriculture (IDEA) at UASB is only for MBA Students.

The Following criteria for IDEA will be taken into consideration:

- a. At any point of time, there shall not be more than 50% of students who can opt under IDEA
